Experience

SlangAI
Founding Frontend Software Engineer

NOVEMBER 2023 – JUNE 2024

- Shaped the company's frontend architecture and frontend standards, ensuring a scalable, high-performing React, Typescript, and GraphQL platform.
- Built a design system library of fully encapsulated, shareable components leveraging shadcn, npm workspaces, and Vite's library mode.
- Collaborated closely with the Design & Product teams to prioritize user-centric design concepts, and the backend team to ensure smooth integration.
- Provided frontend training, leadership, and mentorship to the rest of the engineering team.

Splunk Inc
Software Engineer, Frontend Lead

OCTOBER 2019 – APRIL 2023

- Refactored multiple large legacy applications into fully encapsulated and shareable React components.
- Worked closely with Product & Design teams to create new features and enhance existing tools.
- Created a Design System from scratch - both a component library & Figma design library.
- Served as frontend leader & mentor to other team members.
- Established internal standards for frontend code style and quality.
- Architected & managed all frontend feature work.

ServiceNow
Senior Frontend Developer (contractor)

OCTOBER 2018 – OCTOBER 2019

- Developed modular stand-alone React components to be implemented into AEM for use by in-house authors & publishers.
- Created and implemented code guidelines & standards.
- Collaborated with designers & project managers to understand user requirements and made suggestions for best practices & release cycles.

Special Tactics Solutions
Senior Frontend Engineer (short-term contract)

MARCH 2018 – OCTOBER 2018

- Worked on a team of three to create a fully responsive React site for a covert government operation.
- Contributed to the project 0 -> 1, including design decisions, site architecture, front-end technologies, and development across the entire stack, which included Next.js, Redux, Express, MongoDB, Node, and Sass.

Salesforce
Senior Frontend Developer

AUGUST 2016 – MARCH 2018

- Worked on several large cross-functional distributed teams on projects for companies such as Earthbound Farms, Chipotle, Caesar's Palace, and University of Texas.
- Developed performant, responsive sites, often within very tight timeframes.

Michelle Lamoureaux
Senior Frontend Developer

AKQA
Creative Developer

DECEMBER 2015 – AUGUST 2016

- Worked on client accounts such as Apple and Audi.
- Created a parallax microsite for an AKQA Nvidia award submission.
- Worked closely with project managers and designers to ensure all requirements were well-understood and implemented.

Huge, Inc.
Frontend Engineer

DECEMBER 2013 – DECEMBER 2015

- Worked on projects for clients such as Apple, Google, Seat, Chase Bank, NYU Langone, Comcast, and more.
- Worked both independently and on various sized distributed teams.
- Collaborated closely across various functional teams.
- Created & led one of the in-house technical guilds, and wrote several articles for the Huge blog on various front-end topics including the power of functional prototypes.

Showtime Networks
Senior Frontend Developer

OCTOBER 2012 – DECEMBER 2013

- Led front-end development for the Showtime website.
- Developed micro-sites for new shows as well as one-off digital marketing campaigns and email marketing.
- Worked closely with marketing, design, and backend Java engineers.

Atlantic Records
Senior Developer

OCTOBER 2010 – OCTOBER 2012

- Created full websites, marketing initiatives, social media apps, takeovers, web stores, and more for the label's artists.
- Worked extensively with social APIs, created proofs of concept, built out prototypes, and managed artist email accounts.

Technical Skills
